EGEE/PNGE 590 Colloquium

**AN OVERVIEW OF THE LAND DEVELOPMENT PROCESS IN  
PENNSYLVANIA: CIVIL SITE ENGINEERING SIMPLIFIED**

**Presented by: Jeffrey Sparks, MS Candidate  
Petroleum and Mineral Engineering Program**

*Abstract:*

Land development in Pennsylvania will be discussed from both a design engineer's and a review engineer's perspective. Current zoning laws and design regulations will be briefly discussed and then related design challenges will be noted with examples. Several recent designs will be presented to illustrate the concepts in the presentation.

**Thursday, April 17, 2008  
1:00 – 2:15 p.m.  
157 Hosler Building**

*light refreshments will be served at 1:00 p.m.*
