

## **INTERN (Summer 2024)**

Advanced Resources International, Inc. (ARI) is a consulting and project development firm specializing in the areas of subsurface geology and engineering for emissions reduction (CO<sub>2</sub> storage) and related oil and gas activities. Our employees and interns work at the forefront of these core capabilities, generating fit-for-purpose solutions to challenging problems. ARI is currently seeking **Geoscience and Engineering Interns** for the 2024 summer in our Knoxville, Tennessee office. If you believe you meet the following qualifications, please submit your resume with current contact information by e-mail to [careers@adv-res.com](mailto:careers@adv-res.com).

### **JOB DESCRIPTION**

Summer employment with ARI spans two to three months, with the final duration negotiated with the selected candidate. The person filling this position will have the opportunity to function as part of a technical team comprised of engineers, geologists, environmental scientists, analysts, and support staff. Depending on the core capabilities of the candidate, the selected candidate will:

- Collect, interpret, compile, and analyze data,
- Draft technical reports,
- Support ongoing government, commercial, and internal projects at ARI,
- Assist with field projects, as needed, and
- Complete assigned project work within schedule and budget constraints.

### **POSITION REQUIREMENTS**

- Working toward a geology or engineering-related four year or graduate degree.
- Minimum 3.0 GPA.
- Ability to work independently and as part of a team.
- Positive attitude and eagerness to take on technical challenges.
- Excellent verbal and written communication and interpersonal skills.
- Problem solving ability and commitment to quality results under schedule deadlines.
- Solid grasp of their course of study and ability to learn.

### **DISCLAIMER**

The above description is intended to describe the general nature of work being performed by people assigned to this position. These descriptions are not an exhaustive set of all responsibilities, activities, and skill required of staff members.

### **COMPENSATION**

Advanced Resources International, Inc. offers compensation of \$3,000 to \$4,000 per month, depending on the candidate's background, and a relocation allowance.
